

ALJAWHARA ALMOIKEL

AI Developer

✉ almoikelja@gmail.com ☎ +966 591372025 📍 Riyadh, Saudi Arabia

PROFESSIONAL SUMMARY

Artificial Intelligence student with a solid foundation in machine learning and software development. Skilled in problem-solving and data analysis, with an interest in applying AI to real-world challenges and continuously developing technical expertise

EDUCATION

Bachelor of Science in Artificial Intelligence, 2027 | Riyadh, Saudi Arabia
Princess Nourah Bint Abdulrahman University

XR Bootcamp - AR, VR, and MR Development, 07/2025 – 08/2025 | Riyadh, Saudi Arabia
Tuwaiq Academy

TECHNICAL SKILLS

Programming Python, Java, C#, SQL	ML/AI Feature Engineering, Data Mining, Classification, Clustering, Model training & evaluation
XR Development Unity, Vuforia, XR Interaction Toolkit, Convai AI, AR/VR Development	Tools & Platforms Git/GitHub, Figma, HTML/CSS

CERTIFICATIONS

IBM AI Developer - IBM (Coursera) — March 2026
Machine Learning for Natural Language Processing - AWS Academy — April 2026
Generative AI Foundations - AWS Academy — April 2026
Prompt Engineering and Responsible AI – Sdaia Academy — February 2026
XR development bootcamp - Tuwaiq academy — September 2025
Unity VR Development - Unity Technologies — August 2025
Machine Learning with Python - IBM (Coursera) — April 2025
Developing AI Applications with Python and Flask - IBM (Coursera) — April 2025
Cloud Computing and Artificial Intelligence Program - Tuwaiq Academy — January 2025
Database Foundations - Oracle Academy — October 2024
Introduction to Python Programming - University of Pennsylvania (Coursera) — October 2024
Java Foundations - Oracle Academy — May 2024

PROFESSIONAL SKILLS

- Problem Solving
- Rapid Learning
- Team Collaboration
- Creative & Innovative Thinking
- Adaptability

PROJECTS

Taazur - Partner Match Platform

Smart partner-matching platform that connects users based on shared goals, skills, and interests using structured profiles and intelligent matching algorithms.

Technologies: Python, Flask, PostgreSQL, RESTful APIs, Data Matching Algorithms

VRlingo - AI-Powered VR Language Learning Platform

Immersive VR platform teaching languages via cultural scenarios with AI NPCs.

Technologies: Unity, C#, XR Interaction Toolkit

Smart Parking Prediction System

ML model predicting real-time parking availability to reduce urban congestion.

Technologies: Python, XGBoost

AR Recipe Recommendation Application

AR app providing personalized recipes via ingredient scanning and preferences.

Technologies: Unity, C#, Vuforia AR

Movie Reviews Data Mining & Analysis

Extracted patterns and insights from movie reviews using ML techniques.

Technologies: Python, Data Mining, Machine Learning

Extracted patterns and insights from movie reviews using ML techniques.

Technologies: Python, Data Mining, Machine Learning
