

ALJAWHARA ALMOIKEL

AI Engineer

Riyadh, Saudi Arabia · almoikelja@gmail.com · LinkedIn · GitHub · Portfolio

SUMMARY

BSc Artificial Intelligence student with project experience across the full development path: engineering features from raw data, training and evaluating models, and building the interfaces that deliver them to users. Interested in applied machine learning and intelligent systems, where the outcome depends as much on engineering as on model performance.

EDUCATION

Bachelor of Science in Artificial Intelligence Princess Nourah Bint Abdulrahman University · GPA 4.23 / 5.00	2023 – Expected 2027 Riyadh, Saudi Arabia
XR Development Bootcamp — AR, VR & MR Tuwaiq Academy	Jul – Aug 2025 Riyadh, Saudi Arabia

PROJECTS

UMBRA — Shade-Aware Walking Routes AI Champions, Tuwaiq Academy + Google for Developers · 2nd Place — Tourism Track · 300+ teams, 1,000+ participants ▪ Ranked walking routes by shade coverage against sun position computed from date, time and location. ▪ Used Gemini to explain the computed route metrics, keeping route selection deterministic. ▪ Led the team from concept to a first working prototype in three days, well inside the challenge window. React · TypeScript · Leaflet · Gemini API · Three.js Live Demo	Aug 2026
Taazur — Complementary Team Formation University project · deployed, with auth, teams, join requests, notifications and chat ▪ Built a teammate recommender ranking candidates on mutual skill coverage rather than similarity, so teams form around gaps instead of overlap. ▪ Engineered six pairwise features and trained a GradientBoostingRegressor to rank candidate pairs. ▪ Paired model ranking with an interpretable need-coverage score, so users can see why a teammate was suggested. Python · Flask · scikit-learn · React · Firebase Auth · Firestore Live Demo · GitHub	Apr 2026
VRlingo — Immersive Language Learning Tuwaiq XR Development Bootcamp · Published on SideQuest ▪ Built a VR language-learning experience in Unity across two destination environments. ▪ Integrated Convai-powered conversational NPCs for contextual speaking practice. Unity · C# · XR Interaction Toolkit · Convai SideQuest	Jul – Aug 2025

LEADERSHIP & ACTIVITIES

AI Committee Member Tuwaiq Student Club, Princess Nourah Bint Abdulrahman University ▪ Delivered two workshops in the club's Introduction to Artificial Intelligence programme. ▪ Helped organise the AI Model Building Bootcamp and built an interactive educational game used as a bootcamp activity.	May 2026 – Present Riyadh, Saudi Arabia
---	--

TECHNICAL SKILLS

Languages	Python · TypeScript · C# · SQL
AI / ML	scikit-learn · Feature Engineering · Model Evaluation Gemini API · LLM Integration · Prompt Design
Web & Backend	React · Flask · REST APIs · Firebase Auth · Firestore · Tailwind CSS
XR & Interactive	Unity · XR Interaction Toolkit · Three.js
Data & Tools	pandas · NumPy · Git/GitHub

CERTIFICATIONS

AWS Academy Graduate — Machine Learning for Natural Language Processing AWS Academy	Apr 2026
Generative AI Foundations AWS Academy	Apr 2026
IBM AI Developer Professional Certificate IBM (Coursera)	Mar 2026
Prompt Engineering and Responsible AI SDAIA Academy	Feb 2026
